Summary

Front-End Web Developer with 3+ years of responsive design & UI/UX design implementation. Experienced in all stages of the development cycle for dynamic web & app projects. Well acquainted with numerous programming languages including C++, JavaScript, and Swift. My package also comes with an additional bundle of a committed, humorous, hardworking & determined character. That's right, you're getting all that for FREE, sort of.

- ★ **Arizona Technical Skill Standards**
  Software Development

LANGUAGES

- – English – Fluent
- – Somali – Fluent
- – Maymay – Fluent
- – Spanish – Minimally Proficient
- – Arabic – Elementary Proficient

Work EXPERIENCE

Summer Internship at Desert View High School –
Technician

May 2017 - July 2017

Worked with my school district technicians repairing, reimaging, cleaning student laptops. My assistance made it possible to have all computers (a rough estimate of 2000+) done before the next school year. Tasks included but not limited to: Factory Resetting using CD and thumb drive. In addition to that, I took apart laptops to replace broken physical components.

South Bay Center for Counseling (SBCC) –
Front-End Web Developer

May 2017 - September 2017

Volunteered my programming skills as well as my time to bring to life a platform where bad communities in California could reach out to for help. Tasks included but not limited to: summarizing sentences, repositioning of content, utilizing photoshop for custom images to fit the theme layout, and using HTML to edit the PayPal donation button. I felt really good about this one, I still do.
